

YOGITA MITTAL

Full-Stack & AI-Integrated Developer

 yogitamittal.tech@gmail.com |  +91 836 049 2810 |  <https://tinyurl.com/YogiFolio> |  <https://linkedin.com/in/yogitamittaltech> |  <https://github.com/yogitamittal93>

PROFILE SUMMARY

Results-driven Full-Stack Engineer with 10 + years of experience building scalable web platforms and AI-integrated solutions for global brands. Owns projects end-to-end—from architecture to deployment—using Next.js, React, Tailwind CSS, Python, and Docker. Combines deep frontend expertise with backend automation and marketing insight to deliver fast, secure, and business-ready applications.

CORE SKILLS

Frontend: React 19, Next.js 14 (App Router), JavaScript (ES6 +), jQuery, AJAX, Tailwind CSS, HTML5, CSS3, TypeScript

Backend: Python (FastAPI basics), Node.js, Core PHP, Laravel, REST API Integration

AI & Automation: AI Integrations (OpenAI API, basic RAG workflows, chat automation), Data Visualization, Marketing Automation

Databases: PostgreSQL, MySQL

DevOps: Docker, AWS, GitHub Actions, CircleCI, CI/CD Pipelines

Security: OAuth 2.0, JWT, HTTPS Best Practices

Other: SEO & ADA Compliance, Web Performance Optimization, WordPress CMS, Figma UI, API Integration

PROFESSIONAL EXPERIENCE

Marketing Developer – Measured (Texas, US – Remote) | Oct 2023 – Nov 2024

- Developed and optimized multi-site marketing and analytics systems using React, Next.js, and REST APIs.
- Enhanced SEO health and site speed (3.5 s → 0.7 s) through structured metadata, CDN, and caching.
- Built dynamic page components (Events, Resources, FAQs) with pagination and real-time content updates.
- Integrated tracking and automation tools (Ahrefs, Clearbit, HubSpot, Google Tag Manager) to improve lead conversion by 25 %.
- Collaborated with design and product teams to deliver responsive and accessible UI/UX across devices.

Freelance Full-Stack Developer – Remote | Feb 2022 – Present

- Delivered custom full-stack projects using Next.js, React, Tailwind CSS, and Python/Node back-ends.
- Implemented **AI integrations** via OpenAI API for automated chat and content generation systems.
- Built microservices projects with Dockerized environments and PostgreSQL databases.
- Optimized CI/CD pipelines (GitHub Actions + AWS) to automate deployment and testing.
- Delivered end-to-end solutions for clients in SaaS and marketing domains.

Software Developer – Gardens Alive! (Lawrenceburg, US) | Jul 2012 – Feb 2022

- Developed and maintained 15 + brand websites using PHP, Laravel, and MySQL.
- Migrated legacy code to modular architecture and improved page load times by 40 %.
- Integrated marketing APIs and personalized email automation flows, boosting conversions by 20 %.

YOGITA MITTAL

Full-Stack & AI-Integrated Developer

 yogitamittal.tech@gmail.com |  +91 836 049 2810 |  <https://tinyurl.com/YogiFolio> |

 <https://linkedin.com/in/yogitamittaltech> |  <https://github.com/yogitamittal93>

- Led cross-team initiatives for accessibility and UX optimization (WCAG 2.1 AA > 95 %).
- Delivered data-driven features and campaign landing pages in coordination with marketing and content teams.

SELECTED PROJECTS

Ideaboard App – Full-Stack Microservices Project

 [GitHub](#) | [Live Demo](#)

- Built a Dockerized microservices app (Next.js + Node + PostgreSQL) with API Gateway architecture.
- Deployed frontend on Vercel and backend on Render; documented scaling and architecture decisions.

Next.js Dynamic Category & Brand Pages

 [GitHub](#) | [Live](#)

- Created a modular category and brand system with multi-brand product mapping and visual sub-categories.
- Added WhatsApp “Get Quote” CTA and Supabase-powered reviews for real-time engagement.

EDUCATION & CERTIFICATIONS

Bachelors in Computer Applications – Sikkim Manipal University

University of Michigan (Coursera): Python for Everybody Specialization (2025)

FreeCodeCamp: JavaScript Algorithms & Data Structures (2024)

LinkedIn Learning: Git & GitHub for Developers

HIGHLIGHTS

- ✓ 12 + years of progressive development experience across eCommerce and AI platforms
- ✓ Proven track record in speed, SEO, and conversion improvements
- ✓ Hands-on with Dockerized microservices and AI API integrations
- ✓ Strong ownership mindset – from architecture to production launch
