Specialties: Website Architecture, Performance Optimization, UX Optimization, Accessibility, Debugging, Technical Strategy

Professional Experience

Marketing Web Developer / Full Stack Website Owner

Measured

Oct 2023 – Nov 2024

- Served as the **sole technical owner** of the company's marketing website and web infrastructure, responsible for end-to-end website strategy, implementation, maintenance, and optimization.
- Built and maintained full-stack website functionality across frontend, backend integrations, forms, CMS modules, analytics systems, and marketing automation workflows.
- Improved website performance from **~3.0s to ~0.7s** load times via frontend/backend optimization, asset reduction, lazy loading, and technical architecture improvements.
- Increased lead conversion rate by **25%** through UX improvements, form optimization, conversion-focused experimentation, and funnel enhancements.
- Developed reusable frontend/backend modules and templates enabling faster campaign and feature deployment.
- Managed SEO, analytics tracking, attribution systems, GTM, Search Console, and data-driven experimentation initiatives.
- Led technical evaluation, procurement, auditing, and implementation of plugins, tools, and vendor solutions for website operations.
- Managed hosting, deployments, DNS, domain configurations, redirects, and production website troubleshooting.

Senior Web Developer / Full Stack Engineer

Gardens Alive

Jan 2012 – Sep 2022

- Developed and maintained **19+ high-traffic ecommerce and content websites** across a multi-brand digital portfolio.
- Built and enhanced full-stack web applications/features using JavaScript, PHP, MySQL, HTML, CSS, and backend business logic integrations.
- Modernized large legacy production codebases while maintaining uptime and business continuity for revenue-critical systems.
- Led accessibility and frontend modernization initiatives, achieving **95+ accessibility scores** across managed properties.
- Built reusable modules/components/templates to support campaigns, merchandising, and scalable website enhancements.
- Integrated CRM/marketing systems including Silverpop and related automation platforms.
- Diagnosed and resolved complex frontend/backend production issues, performance bottlenecks, and system bugs.

- Collaborated with marketing, merchandising, business, and design teams to execute website enhancements aligned with strategic objectives.

Web Developer / Technical Consultant

Red Rock Taxes

Jun 2025 – Dec 2026

- Delivered website development and technical consulting for multiple business websites and digital properties.
- Built responsive frontend interfaces and custom backend functionality for client requirements.
- Managed hosting, deployments, DNS, SSL, technical migrations, SEO-preserving redirects, and server troubleshooting.
- Performed performance optimization, technical SEO improvements, and infrastructure enhancements.

Selected Technical Projects

Modern Full Stack / Node.js / React Projects

Portfolio

- Built full-stack modern web applications using React, Next.js, Node.js, APIs, SSR/SSG, and production deployment workflows.

Machine Learning / AI Projects

Deep Learning Repository

Machine Learning Repository

- Developed ML/AI projects using TensorFlow, Scikit-learn, NLP, and predictive modeling pipelines.

Education

Bachelor's Degree in Computer Applications
