PROJECTS

- **Recent Pages completed created, tested and published by me for Measured website on wordpress, various plugins, ACFs, wp-offload, cloudflare etc. are being used,** <https://www.measured.com/upcoming-events/>, <https://www.measured.com/events/nrf-retails-big-show/>, <https://www.measured.com/keynote/>, <https://www.measured.com/keynote-demo/>, pages redesigned completely are <https://www.measured.com/>, <https://www.measured.com/incrementality-platform/>, Also, many changes were made like optimising whole website by adding paginations, updating robots.txt, reducing load time, removing unnecessary plugins.
- **brecks gifts website**, This website was completely re-designed by me, only the coding part. We received the mockups from graphics team and I implemented it page by page with the help of some team members for testing and database part. It includes Smarty PHP, jquery, JSON, HTML, CSS. various 3rd party APIs work on commerceV3 platform <https://www.brecksgifts.com/>
- **Cart and Sale prices on category pages**, This is one example of work, on this website, we had multiple types of sales going on, few with coupons codes, few without, some have slashed prices, some have shipping offers, some have some amount off. Also it have various shipping options, expedite, heavy items extra charge, multiple addresses in one order extra charge, so it had messed up cart situation, I used to fix such issues. <https://bitsandpiecesuk.co.uk/>
- **Implementing powerreviews (3rd party reviews for all products across website for customer's trust), personalised pop ups as per cookies and sessions, GTM tracking, responsive jquery carousels, colorbox for product images, I used to implement everything and anything on over 12 US, canadian, Uk brands for gardensalive**, Examples are <https://springhillnursery.com/>, <https://www.bitsandpieces.com/>, <https://www.spilsbury.com/>, <https://www.gurneys.com/>, <https://www.weeksroses.com/>, etc.
