Senior Full Stack Engineer — Web Platform & Growth Engineering

Senior Full Stack Engineer with **13.5+ years of experience** building, optimizing, and scaling high-impact web platforms across frontend, backend, infrastructure, and growth engineering. Deep expertise in **React, Next.js, JavaScript/TypeScript, Node.js, CMS ecosystems, performance optimization, analytics, experimentation, and web infrastructure**. Proven record of owning business-critical websites end-to-end, partnering with marketing/design/product stakeholders, and shipping performant experiences that drive measurable revenue outcomes.

Core Skills

Frontend: React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, PHP, Smarty PHP, MySQL

CMS / Marketing Systems: HubSpot CMS, WordPress, Contentful/Sanity-style Headless CMS Workflows, GTM, GA, Clearbit, Marketo-style Integrations

Infrastructure / DevOps: Vercel, AWS, CloudFront, DNS, Hosting, CI/CD, CircleCI, Terraform (working knowledge)

Optimization / Testing: Core Web Vitals, Lighthouse, A/B Testing, Analytics, Conversion Optimization, Lazy Loading, Asset Optimization

Other: Accessibility (WCAG), SEO Preservation, Cross-browser Debugging, Technical Architecture, Stakeholder Collaboration

Professional Experience

Marketing Web Developer / Full Stack Web Owner

Measured

Oct 2023 – Nov 2024

- Served as the **sole technical owner** of the company's marketing website and web infrastructure, partnering directly with growth, product marketing, and design stakeholders.
- Built and maintained end-to-end web solutions across frontend interfaces, backend integrations, CMS modules, forms, automation systems, and supporting infrastructure.
- Developed scalable reusable components/templates enabling faster campaign, landing page, and experiment launches.
- Improved website performance from **~3.0s to ~0.7s load times** via lazy loading, asset optimization, script reduction, and frontend performance engineering.
- Increased lead conversion rate by **25%** through form redesign, UX optimization, funnel improvements, and experimentation.
- Managed **HubSpot CMS** development including templates, modules, forms, workflows, and platform customization.
- Implemented and maintained analytics, attribution, tracking, A/B testing, GTM, Clearbit, and marketing integrations for data-driven optimization.
- Led plugin/vendor/tool evaluation, technical audits, procurement, and implementation decisions for web stack improvements.
- Managed deployment pipelines, domain/DNS configuration, hosting, SEO-sensitive redirects, and web operations.

Senior Web Developer / Full Stack Engineer

Gardens Alive

Jan 2012 – Sep 2022

- Developed and maintained **19+ high-traffic ecommerce and content websites** across a multi-brand portfolio.
- Built frontend and backend features using JavaScript, PHP, Smarty PHP, MySQL, HTML, and CSS in large-scale production systems.
- Modernized and extended legacy web platform architecture while preserving mission-critical business continuity.
- Achieved **95+ accessibility scores** across managed websites through WCAG-focused frontend improvements.
- Built reusable frontend/backend modules and templates to support campaigns, merchandising, promotions, and brand-specific features.
- Integrated CRM and marketing automation systems including **Silverpop** and related campaign tooling.
- Diagnosed and resolved complex production issues across frontend, backend, and integration layers.

- Partnered with merchandising, marketing, design, and business teams to deliver conversion-focused web experiences.

Web Developer / Technical Consultant

Red Rock Taxes

Jun 2010 – Dec 2011

- Delivered full-stack web development and technical consulting for multiple business websites and digital properties.
 - Built responsive frontend interfaces and custom backend functionality for client requirements.
 - Managed hosting, deployments, DNS, SSL, technical migrations, and SEO-preserving redirects.
 - Performed website performance optimization, technical SEO improvements, and infrastructure troubleshooting.
-

Selected Technical Projects

Modern React / Next.js Projects

Portfolio

- Built and deployed modern React/Next.js applications demonstrating SSR/SSG, component architecture, responsive UI systems, and performance optimization best practices.

Machine Learning / AI Engineering Projects

Deep Learning Repository

Machine Learning Repository

- Developed applied ML/AI projects using TensorFlow, Scikit-learn, CNNs, NLP, and model evaluation pipelines.
-

Education

Bachelor's Degree in Computer Applications
