India (Remote)

Frontend Engineer

Frontend Engineer with 13.5+ years of experience building accessible, performant, and scalable web applications across React, Next.js, TypeScript, and modern frontend ecosystems. Strong expertise in design systems, Core Web Vitals optimization, reusable component architecture, and translating design requirements into polished production-ready user interfaces. Proven record of shipping high-impact frontend experiences in remote, async, and fast-paced environments.

Core Skills

Frontend: React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design

State Management: Redux Patterns, Zustand Patterns, Context API, Component State Architecture

Performance: Core Web Vitals, Lighthouse Optimization, Lazy Loading, Code Splitting, SSR/SSG

Accessibility: WCAG, Semantic HTML, Keyboard Navigation, ARIA Best Practices

Testing/Quality: Component Testing Concepts, Debugging, Code Reviews, Cross-Browser QA

Backend Familiarity: Node.js, NestJS, REST APIs, PHP, MySQL, PostgreSQL

Professional Experience

Frontend Engineer / Marketing Web Developer

Measured

Oct 2023 – Nov 2024

- Owned frontend development for the company's primary marketing website, shipping features end-to-end from design collaboration to deployment.
- Improved website performance from **3.0s to 0.7s load time** through frontend optimization, lazy loading, script reduction, and asset tuning.
- Increased lead conversion rate by **25%** through UX improvements, form redesign, and iterative funnel optimization.
- Built reusable modular page sections/components to accelerate campaign and landing page delivery.
- Partnered directly with marketing and design teams to convert visual specs into responsive, pixel-accurate production UI.
- Managed analytics, tracking, A/B testing integrations, and frontend experimentation tooling.

Senior Web Developer / Frontend Engineer

Gardens Alive

Jan 2012 – Sep 2022

- Developed and maintained frontend systems across **19+ high-traffic ecommerce/content websites**.
- Built reusable UI templates and shared frontend modules across multi-brand web properties.
- Led accessibility improvements achieving **95+ accessibility scores** across managed websites.
- Optimized frontend performance, UX, and rendering behavior across legacy and modernized interfaces.
- Partnered with merchandising/design/business stakeholders to deliver campaign and product experiences rapidly.
- Debugged and resolved complex frontend/browser/rendering issues in production environments.

Frontend / Web Developer

Lakshmi Iron Company

Contract Project

- Designed and developed a modern business website using **Next.js** with responsive, SEO-optimized frontend architecture.
- Implemented reusable UI sections/components and optimized page structure for maintainability and scalability.
- Delivered performance-focused SSR/SEO implementation for improved discoverability and load speed.

Full Stack Developer (Ongoing Personal/Product Project)

MomDigital

Current

- Building a production-grade application using **Next.js + NestJS** architecture.
- Developing reusable frontend component systems and backend APIs for scalable product workflows.

- Implementing modern full-stack patterns including SSR, modular backend services, authentication, and API integrations.

Web Developer

Red Rock Taxes

Jun 2010 – Dec 2011

- Delivered frontend and full-stack development for multiple client websites.
- Built responsive interfaces and optimized UI/UX for better performance and engagement.
- Managed deployments, hosting, DNS, and site optimizations.

Projects

Machine Learning / AI Projects

Deep Learning Repository

ML Repository

- Built ML and AI projects using Python, TensorFlow, and Scikit-learn demonstrating advanced analytical and technical problem-solving capability.

Education

Bachelor's in Computer Applications
