India (Remote)

Senior Frontend Engineer

Senior Frontend Engineer with **13.5+ years of experience** building, optimizing, and scaling high-impact web applications across React, Next.js, JavaScript, and modern frontend ecosystems. Strong ownership mindset with proven ability to **ship end-to-end features**, improve performance, and deliver production-grade user experiences in fast-moving environments. Deep expertise in **UI architecture, Core Web Vitals, accessibility, and conversion-focused engineering**.

Core Skills

Frontend: React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS, Tailwind CSS

State & Architecture: Component Design, State Management (Zustand/Redux patterns), Scalable UI Systems

Performance: Core Web Vitals, Lighthouse Optimization, Lazy Loading, Code Splitting, SSR/SSG

Backend (Working Knowledge): Node.js, Express, REST APIs, PHP, MySQL

Tools: Git, CI/CD, Vercel, Webpack, Chrome DevTools

Specialties: UX Optimization, Accessibility (WCAG), Debugging, Conversion Optimization

Professional Experience

Marketing Web Developer / Frontend Owner

Measured

Oct 2023 – Nov 2024

- **Owned frontend development end-to-end** for the company marketing website, acting as the **single engineering owner** within the marketing team.
- Built responsive, scalable UI systems using modern JavaScript and **component-driven architecture**.
- Improved page load performance from **3s to 0.7s (75%+ improvement)** through optimization techniques.
- Increased **lead conversion rate by 25%** by redesigning forms and optimizing user journeys.
- Developed **reusable templates and modular components** to accelerate campaign launches.
- Led **frontend architecture, tooling, and integration decisions**.
- Implemented **analytics, tracking, and attribution integrations** (GTM, CRM flows).
- Acted as a **primary debugging and performance escalation point** in production.
- Contributed to **customer-facing support workflows** by debugging user issues and improving UX.

Senior Web Developer / Frontend Engineer

Gardens Alive

Jan 2012 – Sep 2022

- Built and maintained **19+ high-traffic ecommerce and content websites** across a multi-brand portfolio.
- Designed **scalable frontend architecture and reusable UI systems**.
- Achieved **95+ accessibility scores** across the entire portfolio.
- Led **performance optimization initiatives** improving load times and Core Web Vitals.
- Developed **reusable templates and components** for campaigns and merchandising.
- Integrated **CRM/email systems (Silverpop)** for large-scale marketing automation.
- Improved **conversion rates via UX optimization**, including forms and funnel improvements.
- Acted as a **primary debugging resource across frontend/backend systems**.
- Collaborated cross-functionally to deliver **high-impact, production-ready solutions**.

Web Developer

Red Rock Taxes

Jun 2025 – Dec 2026

- Delivered **frontend and full-stack development** for multiple client websites.
- Built **responsive UI** and improved engagement via UX optimization.

- Managed **deployments, DNS, hosting, and production environments.**

Selected Projects

Modern Frontend Projects (Next.js / React)

Portfolio

- Built **production-ready React/Next.js applications** demonstrating SSR, scalable architecture, and performance optimization.

Machine Learning / AI Projects

Deep Learning Repository

ML Repository

- Developed **ML models and pipelines** using TensorFlow and Scikit-learn (CNNs, classification, feature engineering).

Education

Bachelor's Degree in Computer Applications
