PROFESSIONAL SUMMARY

Full-Stack Engineer with 12+ years of experience building high-traffic eCommerce systems, marketing platforms, and internal operational tools for U.S. brands. Strong expertise in React, advanced JavaScript, Node.js, PHP, and API-driven architectures with proven impact on revenue growth, performance optimization, and system modernization. Strong applied foundation in Machine Learning including EDA, regression, classification, and model evaluation workflows.

TECHNICAL SKILLS

Frontend: React, Next.js, Advanced JavaScript (ES6+), jQuery, AJAX, SCSS, Tailwind CSS

Backend & Architecture: Node.js, Express, PHP (CommerceV3), REST APIs, Microservices (API Gateway), Docker

Machine Learning & Data: Strong EDA, Feature Engineering, Regression, Classification (Decision Trees), Model Evaluation (Precision/Recall, Confusion Matrix), Pandas, NumPy, Matplotlib, SQL/SQLite

Cloud & Tools: AWS (Deployment Exposure), Git, Bitbucket, Jira, Agile Workflows

FREELANCE & INDEPENDENT PROJECTS (Current)

Dynamic Category & Multi-Brand Platform (Lakshmi Iron Company)

- Built scalable brand_url mapping architecture with reusable components.
- Implemented quick-view modals and WhatsApp-driven engagement workflows.
- Focused on performance optimization and maintainable architecture.

Red Rock Taxes – Internal Tools Development

- Built document workflow dashboards and modular React systems.
- Integrated verification and payment APIs for operational visibility.

Ideaboard – Microservices Architecture

GitHub: <https://github.com/yogitamittal93/ideaboard>

Live: <https://ideaboard-5ma18h8qh-yogitasingla93s-projects.vercel.app/>

- Designed API Gateway using Node/Express with Dockerized services.
- Deployed backend (Render) and frontend (Vercel) independently.

Marketing Web Developer – Measured

- Contributed to major homepage redesign and UX restructuring.
- Built paginated Events, FAQ, and Resources systems.

- Improved SEO architecture and metadata structuring.
- Enhanced performance and structured content delivery.

Software Developer – Kinerk Direct Marketing Solutions (Gardens Alive Portfolio)

- Led full frontend and backend redesign for Breck's Gifts.
- Integrated third-party APIs, **increasing conversion rate by 20%**.
- Performance optimization initiatives contributed to **~3X revenue growth across two major brands during COVID**.
- Resolved revenue-impacting cart and checkout calculation issues.
- Modernized legacy PHP architecture with structured JavaScript enhancements.

AI/ML Internship Track – A2IT Infotech (Ongoing)

- Applied regression and classification model development.
- Strong EDA workflows including feature engineering and preprocessing.
- Model comparison, evaluation metrics, and visualization pipelines.
