

Yogita Mittal

Senior UI/UX Designer

Design Feasibility & Product Execution

12+ years of experience designing and shipping scalable SaaS and web platforms. Specialized in translating complex business workflows into intuitive, production-ready user experiences.

Professional Summary

Senior UI/UX Designer with deep full-stack implementation expertise across React, Next.js, PHP, and JavaScript. Known for bridging design intent and technical feasibility to deliver elegant, user-centered, and scalable products. Strong collaborator with product, engineering, and business stakeholders.

Core Competencies

- User-centered UX & interaction design
- Design-to-code execution (Figma → production)
- Complex workflow simplification
- Mobile-first & responsive design
- Data-driven UX (A/B testing, analytics)
- Accessibility & performance optimization

Case Study 1: Dynamic Category & Brand Experience

Problem: Users struggled to discover products across multiple categories and brands.

Solution: Designed a scalable, visual browsing system with quick decision-making flows.

User Flow Diagram

High-Fidelity Category UI

Key decisions included image-led navigation, reusable card components, quick-view modals, and a WhatsApp-based CTA aligned with real-world user behavior.

Case Study 2: Measured – Homepage & Core UX Redesign

Problem: Marketing pages lacked clarity and conversion focus.

Solution: Redesigned homepage and core sections with improved hierarchy and information architecture.

Homepage UX Wireframe

High-Fidelity Homepage Design

Worked closely with design and content teams to ensure visual consistency, accessibility, and SEO-friendly structure.

Case Study 3: Ideaboard App – Interaction Design

Problem: Enable intuitive real-time brainstorming without user friction.

Solution: Designed a dynamic sticky-note interface with clear interaction feedback.

Interaction Flow

High-Fidelity Sticky Note UI

Focused on clarity, responsiveness, and future scalability through modular UI patterns.
