- Scalability & Performance: Scalable Architecture, Performance Optimization, API Development, Caching Strategies
- DevOps & Deployment: CI/CD Pipelines, Docker, AWS S3, Cloudflare CDN, Git, GitHub
- Testing & Debugging: Unit Testing (PHPUnit), Performance Testing, Debugging Large-Scale Systems
- Tools & Collaboration Platforms: Slack, Zoom, Skype, Asana, Jira
- Marketing & SEO Platforms: Silverpop, Kalio, SEMrush, HubSpot

WORK EXPERIENCE

WordPress Developer

Measured, Texas, US (October 2023 - Present)

- Optimized backend architecture, improving website health from 78% to 98% and reducing page load time from 3.5s to 0.7s.
- Implemented AWS S3 and Cloudflare CDN, enhancing scalability and asset storage efficiency.

- Containerized WordPress using Docker & CI/CD, streamlining deployment and version control.
- Integrated Clearbit with HubSpot, increasing form submissions by 20%.

Software Developer

Gardens Alive, Lawrenceburg, US (February 2018 - February 2022)

- Developed scalable backend features for CommerceV3 (Smarty PHP, MySQL, JavaScript), handling high-traffic loads.
- Designed and optimized a multi-layered checkout system, reducing abandonment rates by 30%.
- Integrated third-party APIs for personalized user experiences and better performance.
- Implemented caching strategies, improving search and filtering speeds by 40%.

Web Administrator

Gardens Alive, Lawrenceburg, US (July 2013 - February 2018)

- Managed bulk email marketing campaigns across multiple platforms, increasing engagement rates.
- Pioneered responsive email templates, leading to a shift from catalog-based marketing to digital marketing.
- Ensured 24/7 uptime and availability of all e-commerce platforms.

CERTIFICATIONS

- JavaScript Algorithms and Data Structures (FreeCodeCamp) (September 2023 - February 2024)
- PHP & MySQL Training (Multiplesystems, Mohali, India) (2014)

EDUCATION

Sikkim Manipal University, Mohali, India

Bachelors in Computer Applications (2011 - 2014)

PROJECTS

- Measured.com WordPress Optimization: Optimized the WordPress site using Cloudflare CDN, AWS S3, caching strategies, and CI/CD pipelines. Improved page speed and reduced load time by 80%.
- Breck's Gifts Website Redesign: Led the full frontend and backend implementation using Smarty PHP, jQuery, JSON, and CommerceV3, ensuring seamless user experience.
- Cart & Checkout Optimization for CommerceV3: Re-engineered the cart logic and discount rules

engine, improving checkout conversion rates by 30%.

- PowerReviews Integration: Integrated third-party review systems and dynamic pop-ups to enhance user trust and engagement across multiple brands.

LEADERSHIP & INITIATIVES

- Spearheaded digital transformation at Gardens Alive, transitioning from print catalogs to data-driven digital marketing.
- Mentored junior developers on PHP best practices, performance optimization, and scalable architecture.

HOBBIES

- Book Reading: Favorite books include The Power of the Subconscious Mind, Think and Grow Rich, and Eat That Frog!
- Painting & Exercising
